

POWER CONVERTERS

Using power converter as a finished module has become common practice in all industries, even for very large production runs. They are proven solutions, and available off the shelf.

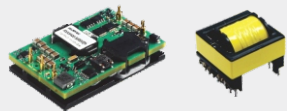

Brick Type
AC/DC Converters
Power Range: 500~750W

Brick Type
DC/DC Converters - Isolated
Power Range: 10~700W

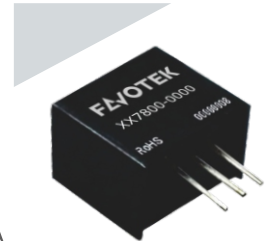

- ▲ POWER CONVERTERS
- ▲ LED DRIVERS
- ▲ MAGNETIC COMPONENTS

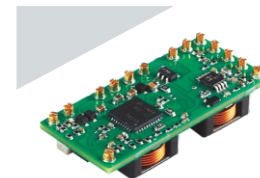

Encapsulated Type
AC/DC Converters
Power Range: 1~25W

Switching Regulators
DC/DC Converters - Non-Isolated
Current Range: 0.5~2A

Encapsulated Type
DC/DC Converters - Isolated
Power Range: 0.25~40W

Point of Load
DC/DC Converters
DOSA / POLA
Current Range: 0~60A

FAVOTEK

Create For Quality Life.

- Favotek is where favorable resources and technology come together to create quality products for the benefit of our customers, driven without waver in the pursuit of quality life.
- Whether it is industrial automation, telecom, data technology, measurement technology, or LED lighting, there you can find our quality power conversion products.
- As a leader in the industry, Favotek will continue to invest in the future through new technologies, talented employees, expanded manufacturing capabilities, and worldwide sales activities.

FAVOTEK LIMITED

#17 Canton Road, Tsim Sha Tsui, Kowloon
Hong Kong

LED DRIVERS

The growing of LED lighting industry is a revolution. LED technology presents great light efficiency and very long lifetime in theory. It remains for quality LED drivers to make them possible.

Economic Lines

3 Year Warranty
Power Range: 3~100W

Advanced Lines

5 Year Warranty
Power Range: 18~250W

Dimmable Lines

Various dimming options
Power Range: 18~100W

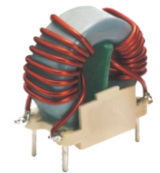

MAGNETICS

Magnetics are key components in all electronics in respect of its influence in power efficiency and EMC performance. In addition, the production is all manual. You need a well-managed factory for them.

Transformers

EMC Filters

Inductors

Coils

Note:

Transformers are mostly custom made. We quote either based on samples or spec. A great variety of magnetics are selectable in our range.
